Education

Case Western Reserve University - Cleveland, OH — Aug 2024 - May 2028

Bachelor of Science in Computer Science and Data Science, Finance Minor | GPA: 3.067

Relevant Coursework: Data Structures, Algorithms, Linear Algebra, Database Systems, Data Science Systems, Structured & Unstructured Data, Full Stack Web Development, Discrete Mathematics, Probability and Statistics, Software Craftsmanship

Certifications: Machine Learning Foundations (Break Through Tech)

Experience

Machine Learning Fellow, Break Through Tech, WebMD - *Remote* — Aug 2026 - Present

- Compared ridge, random forest, and gradient boosting on 406 WebMD campaigns using a time-based 80/20 split
- Reached R^2 0.86 on log spend with a random forest vs. 0.04 baseline, cutting typical error from 97% to 57%
- Recovered 93 missing costs, excluded 8 invalid budgets, and authored the team's data dictionary and quality assessment

Application Engineering Intern (Sprint Program), Giant Eagle - *Remote* — May 2026 - Jun 2026

- Engineered the ingestion and privacy layer for an AI resume ranker, scrubbing PII with spaCy NER and regex
- Parsed noisy PDFs with multi-column order detection and a Tesseract OCR fallback for various resume formats
- Diagnosed a flaw crediting skills the role would teach, then built a two-stage text filter so rankings reflect real qualifications
- Architected file-hash deduplication and SQLite ID mapping, preventing duplicate scoring, and shipped the tool as a CLI that ranks 50+ applications in under a minute; presented the prototype to HR, PM, and the Director of IT

Undergraduate Research Assistant, SaPHaRI Lab, Human Fusions Institute - *Cleveland, OH* — Feb 2026 - May 2026

- Extended the RoboSOAR robot's vision system from tracking one person to multiple people across sessions, enabling personalized interactions with returning users
- Deployed YOLOv10 and RepVGG re-ID on a Hailo-8 accelerator, keeping recognition on-device to cut cloud dependence
- Matched 512-dim embeddings by cosine similarity, recognizing returning people without storing PII

xLab Consultant, Progressive Insurance - *Cleveland, OH* — Aug 2026 - Present

- Research enterprise use of XR/AR with a 6-person R&D team, giving evidence on where a pilot could add value
- Assess device capability, vendor landscape, and frontline workflows for pilot readiness
- Interview frontline staff and score use cases on value and feasibility

Student Technician, Sears think[box] - *Cleveland, OH* — Aug 2026 - Present

- Diagnose and repair 3D printers, laser cutters, and electronics benches, supporting 50+ makers per week
- Guide users through design-for-manufacture decisions, increasing efficiency and productivity and reducing waste
- Research options to bring in a new machine, evaluating capability and fit

Data Analyst Intern, Sainscore - *Ulaanbaatar, Mongolia* — May 2025 - Jun 2025

- Researched and compared international credit scoring models, analyzing efficiency, privacy requirements, and economic fit using data visualization in Excel and academic research methods; presented findings to product leadership
- Validated 200+ bank credit submissions via Postman, surfacing recurring edge cases to streamline error handling

Leadership

Vice President, Girls Who Code - *Cleveland, OH* — Aug 2026 - Present

Treasurer — Aug 2025 - Jun 2026

- Managed a $19.9K chapter budget, growing available funds 74% from $11.4K through sponsorship and grant outreach
- Automated weekly reminders and record-keeping with Python, Slack, and Notion APIs, saving officers 2+ hours per week
- Maintain the chapter website and GitHub organization

Vice President, Women in Data Science - *Cleveland, OH* — Oct 2024 - Present

- Led a chapter restructuring that grew active membership 60% and secured $1.1K to fund datathons and workshops

Treasurer, HackCWRU - *Cleveland, OH* — Nov 2025 - Present

- Grew hackathon funding 40% through outreach to 9 sponsors, with roughly half renewing from the prior year
- Administered $12.5K in prize disbursement across award tracks for a 150+ participant hackathon

Technical Skills

Languages: Python, JavaScript, Java, R, SQL, Bash/Shell

Frameworks & Libraries: Pandas, NumPy, Matplotlib, Seaborn, PyTorch, OpenCV, YOLOv10, PyMuPDF, SpaCy, SBERT, React, FastAPI, scikit-learn, Vue.js, Node.js, Express.js, Chart.js

Tools & Platforms: Git, Jira, Claude Code, Microsoft Copilot, MongoDB Atlas, Docker, REST APIs, Postman, Hailo-8, Maven, JUnit, SQLite, Microsoft Office Suite, Google Workspace, Notion API
